

**15th International Workshop On Micropiles
The Sebastian | Vail, Colorado
May 31-June 2, 2023**

4th Micropile World Cup

The ISM 4th edition of the World Cup will be held at the ISM workshop in Vail, Colorado. This is an International Competition to seek out a micropile project that stands above all others. Five regions of the globe will compete to bring home the Micropile World Cup.

To participate, please submit a one-page summary of your proposed project to <https://tinyurl.com/ISMWorldCup2023>. Project summaries must be submitted before October 1, 2022. A panel of experts from each region will select one project to represent their region. Authors of each selected project will pick a delegate to present the project during a session at the workshop. The presentation will be a maximum of 20 minutes in length, followed by a short question period. A paper will not be required to accompany the presentation.

The ISM delegates will vote for the winner during the workshop. The authors of the winning project will receive the Micropile World Cup to keep until the next edition of ISM.

Regions

- 1) North America
- 2) South and Central America
- 3) Europe
- 4) Africa and Central Asia (Russia, Middle East, and India)
- 5) Australasia

Project Criteria

- Involves Micropiles
- Completed in the last 3 years
- Any project size is eligible
- Innovation, difficult conditions, unique applications will be sought
- Impact on acceptance of micropiles in the region
